

MEMORANDUM FOR RECORD

Allison Diaz
Air Safety Investigator
Eastern Region

Date: August 5, 2015
NTSB Accident Number: ERA15CA295
Persons Contacted: Inspector Bruce Vestal, FAA Columbia, SC FSDO

The following is a summary of the conversation conducted on this date:

- Mr. Vestal responded to the accident site and documented the scene on August 4, 2015, the day after the accident.
- The airplane came to rest upright among trees and exhibited substantial damage to both wings, the cabin area, and empennage. The right main landing gear was folded under the airplane.
- Neither of the occupants of the airplane were injured.
- Mr. Vestal took sample of fuel from the airplane's gascolator (approximately one quart), and about half of the sample was water.
- Flight control continuity was confirmed from the cockpit to all flight controls, with no anomalies observed.
