Narrative

Location: 440 South Airport Rd

On 7/22/2015 I responded to the above location in reference to an airplane crash. Upon arrival I met with Polk County EMS and Lake Wales Fire who advised a plane crashed just east of the airport in a wooded area. I accompanied EMS and Fire to the crash site. I assisted EMS and Fire in removing both the pilot and co-pilot out of the aircraft.

I was able to speak with the pilot of the plane, identified as Anthony Arzave. Arzave said the oil pressure dropped causing the cockpit to fill with smoke. Arzave said he was trying to land the plane on the runway. I was unable to get any further information from Arzave as he was airlifted to Lakeland Medical Center via life flight. The co-pilot identified as Seng-yen Chen was unresponsive at the scene and was air lifted to Lakeland Medical Center via life flight. At the time of this report Chen was listed in critical condition. The plane was a Cirrus SR 20 tail #N610DA.

I then spoke with Cary Cheatham. Cheatham was completing construction on South Airport Rd. Cheatham said he could see the plane was attempting to land on the run way which runs north to south Cheatham said on the west side of the airport. The plane approached the airport from the north. Cheatham said it looked like the plane was leveled out for a landing. Cheatham explained the plane then powered up and banked to the left flying east before disappearing behind the tree line. Cheatham said he did not witness the impact nor did he hear a impact.

I later spoke with Trisha Archer. Archer explained she was cleaning the windows on the east side of the residence. Archer explained she observed a white small air plane flying to east over the airport. Archer said the plane was "sputtering" and losing altitude. Archer said she observed the plane go down behind an oak tree to the east of the airport before seeing the parachute deploy. Archer said the parachute deployed before the plane hit the ground.

Ben Casey Smith from American Compliance Technologies responded to the scene to see if there was any fuel or oil leakage.

Polk County Crime Scene arrived on scene. Crime scene tech Anne Lopez (3669H) processed the accident scene. Polk County case number 150032278.

Federal Aviation Administration investigator Ricardo Rodriguez was contacted and responded to the scene. Rodriguez was briefed on the incident and the scene was turned over to him.

On 7/23/2015 at 0800 Eric Alleyne and Daniel Bogg with the National Transportation Safety Board arrived on scene along with Brad Miller who is the manager of air safety for Cirrus aircraft. They were briefed on the incident and the scene was turned over to Alleyne and Boggs to complete their investigation.

On 7/23/2015 at 1400 Matthew Lambert from Aerosim took possession of a shoe and a pair of Bose headset from the cash site. Lambert signed a evidence property submission form which was turned into records.

I have nothing further at this time.

Narrative

On 07/22/15, I was on the scene of an aircraft accident at the Lake Wales Airport. While on scene, I made contact with Charles Telford who advised he witnessed the aircraft accident occur. Telford advised he lives on the campground at the airport and was there when he witnessed the accident occur. Telford stated he saw the Cirrus aircraft flying around the Lake Wales Airport when he heard the engine from the aircraft begin to sputter. Telford stated the aircraft flew east over the airport and banked left off the east side of the runway. Telford stated the aircraft was traveling north at a very low airspeed. Telford stated he saw the aircraft become level with the top of the tree line and then witnessed the Cirrus' aircraft parachute deploy from behind the trees. Telford then rushed to the east end of the runway where he could see the aircraft in the brush northeast of the runway. Telford had no
