

On Friday September 18, 2015 I, Charles Barrett, was outside at J.D.Floyd School of Environmental Science (located on Dumont Ave). The time was 8:45am and I was facing south. There was overcast or low lying clouds that looked to be around the 200 ft mark. I did not have any obstruction around me because I was in the middle of the car drop off area at the school. As parents cars were coming into the school at approximately 8:52 I heard very loud motor noises coming from the air. There was no noises normally associated with prop aircrafts that preceded the very loud noise that came on very suddenly. The noise made me look up immediately. The noise was a very loud, very high RPM motor sound that would normally sound if a plane was lacking speed or at take-off. The motor then made a cutting out noise as if it had a too rich fuel mixture and could not get enough air in the carburetor to sustain proper fuel air ratio. This cut out noise happened and then the high engine RPM noise came back, then the sputter described came on one more time followed by me seeing the plain from the clouds. The plane was coming from the east and traveling west with a downward angle(not a nose dive). Next thing that happened surprised me, the plane made the high RPM everything it had noise and banked to the left. I could clearly see the color of the plain, description of the plain and even the letter/number markings on the plain. I remember calling 911 and clearly stating to them it was a blue and white aircraft with amphibious landing pontoons and it had the letters "Z and N". The plane banked to the south and then the nose of the aircraft went suddenly straight down with another twist of the plane. The plain then was out of site because of trees approx. 75 yards away. There was no explosion or smoke showing. I yelled at my administrator to call 911 and proceeded to walk towards the front of the school property.

To me it looked like once the pilot came through the clouds it saw the school and yellow buses and it immediately powered the plain for a final try and banked away from the school to the south.

STATEMENT

Case Number: 2015-25296 Date: 09-18-2015

I George Hubbs, hereby make this statement to Vincent Donato who I know to be a Deputy Sheriff of Hernando County, Florida. I have been advised that I have the right to remain silent, that anything I say can and will be used against me in a court of law, that I have the right to have an attorney present while I am being questioned and if I cannot afford to hire an attorney, one will be appointed to represent me before any questioning. No threats, promises, or rewards have been made or offered to me. No force has been used, nor have I suffered any mistreatment, physical or otherwise by any member of the Hernando County Sheriff's Office or anyone else. I make this statement voluntarily and of my own free will, desiring to tell the truth about this matter.

Walking back to my car from I.D. Floyd K-9 when I heard the plane engine cutting out. I was walking with my wife and I told her the plane was in trouble, when I looked up and saw the plane do a complete loop and then a straight nose due to the ground where it rested.

God be with the pilot & family

George Hubbs

Spring Hill, FL, 34609

I hereby swear or affirm that the above statement is true to the best of my knowledge. I further understand that in the event I intentionally provide false information, I can be prosecuted for making a false official statement under F.S.S. 837.06.

At approximately 9:00 AM my wife Sheila & I were inside our home when we heard a plane sputtering and then began to whine up then heard a loud crashing boom. I yelled out to my wife a plane crashed. We rushed outside to see where the plane crashed and saw people running up the street as I approached the scene we all entered the back yard and immediately began to search for the pilot but to no avail as the wreckage was extensive. Shortly after the officials arrived asking everyone to clear the scene.

Sitting in our living room (husband + myself) in front of house doing devotions. We heard what sounded like a plane in distress which was a very short and loud noise, then there was a loud, vibrating, shaking crash sound. We knew it was very close. We ran from the front door. A car in front then drove by pointing that it crashed in the back yard. I ran around to the back + side of the house where I witnessed what looked like a small plane which appeared like crushed tin foil with the apparent motor in view. We were then cleared from the area due to what looked like fuel leaky down. We removed ourselves from the area.

I hereby swear or affirm that the above statement is true to the best of my knowledge. I further understand that in the event I intentionally provide false information, I can be prosecuted for making a false official statement under F.S.S. 837.06.
