Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

forced landing due to engine failure , substantial damage to, landing gear, wing tip, wing struts, fuselage, landed in graveyard and hit one 2 ft tall grave marker, did not hurt it , it flipped the plane over on its back no other damage to property.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I think it was about 2:20 pm, went for a little joy ride like so many times before, departed (klul) Laurel to the southeast, flat land lots of trees , about 9 miles turned around to go back to laurel, (klul), over Ellisville Ms the engine started losing power and alt. at about 800ft the engine stopped. There was no where to land in that direction so I did a 180 turn looking for some place to put it ,trees power lines, no road or street or field, There was no where to make a good landing, then I saw a Graveyard , it had a little pave drive across it with trees down one side, so that was it, the only choice I had, I barey made it , at last I had to move in closer to the trees to get over the drive way, the left wing tip clipped some small limbs of the last tree and turn me a little out of line , I hit in the little road but didn't get stright in time ,hit a 2 ft tall marker and flipped over on its back, that is where it stopped.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I wish I new that, I didnt see anything that would cause that before take off. we did find a loose spark plug that could have caused it.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

engine failure, MZ 202, SER# R00872, the engine got to lean and gauld the pistons and lock up
