

INSTRUCTION AND MAINTENANCE MANUAL

MZ 202

We recommend reading this manual before installing or using the engine

Compact Radial Engines Inc.

Surrey, B.C.

Canada, V3W-9G4

WARNING

This is not an aeronautic approved engine.

This engine has not been subjected to durability and safety tests in compliance with aeronautical standards and is not a certified engine. It is designed to be used in ULM or aeroplanes where engine failure will not produce serious consequences.

The user must assume responsibility for all risks deriving from the use of this engine and must understand that this engine is subject to sudden failure.

Engine failure may result in an emergency landing. Such accidents may cause serious material damage, injury and/or death.

Never use an aircraft fitted with this engine in areas, conditions and altitudes that may cause problems if forced to land as a result of sudden engine failure.
