**NARRATIVE HISTORY OF FLIGHT** *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Saturday July 18 I had an engine cessation in the Kinner Sportster B on take off after some earlier period of flying that day. I was able to successfully land the airplane. We found gas running out of the carburetor and believed the float was stuck. The engine appeared to have drowned by virtue of the rich mixture.

We subsequently hangared the plane. The following week we removed the carburetor, thoroughly cleaned and inspected it. The float was determined to be intact but the float valve was not seating perfectly. It was removed, blued, reseated, reblued, and tested. The carburetor was reinstalled and found to still be leaking.

The carburetor was removed, rechecked, and the float was found to be slightly sticking. A modest portion of material was removed from the float bowl where the sticking was occurring, the carburetor was checked in multiple angles, it was reinstalled. It no longer leaked or flooded. Two separate IA's inspected the work.

On July 23, we tied the plane down and ran it for an extended period at full throttle to verify there were no operational issues. Fuel was confirmed at 3/4 tank. I then hopped the plane getting it 50' in the air and returning to the runway straight ahead to further confirm operation. I then did a full take off. At about 150' in the air the engine stopped. I could not return to the runway. I landed off runway and the airplane was essentially totaled. The gas tank was ruptured in the process and the engine torn away. By the grace of God, I walked away.

We are immeasurably careful with these planes. This plane was 8 hours post a full 7 year restoration. I don't know what more we might have done to prevent this event.

**RECOMMENDATION** (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This was a freak accident. We have deliberated but have no clear idea of what additional we might have done to prevent the accident.
