Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft was destroyed in fire; no other damage to property.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I purchased the pre-owned fuselage and wings in late 2012. After assembling the fuselage and wings, I purchased the landing gear, some instrumentation and an engine kit from other sources. Assembly and testing took quite some time as I had no experience building an aircraft engine or any engine for that matter. Having had some issues with the engine's performance, I finally got it to run satisfactory on the ground. I was able to achieve static RPM on the ground. On August 10, 2015 I attempted my first test flight in this single seat aircraft. After my preflight and run-up I received clearance from the BKV tower to take off from runway 9. The aircraft gained speed but struggled to get off the ground at which time I should have aborted the take off. Trying to overcome the first flight anxiety and not knowing how this aircraft should behave, I continued the take off and climbed very slowly. Having been cleared for a left turn in the pattern, I continued my climb but realized that the engine did not develop enough power to climb sufficiently. Being much too slow, I did not want make a steep turn and risk getting into a stall/spin. As I was just beginning to turn downwind the engine lost more power and I descended crashing into the top of tall pine trees. Hitting the trees, the plane burst into flames and I passed out. When I awoke, I was in the fuselage on the ground and my legs were on fire. I was wearing a helmet and a 4 point safety harness. After unbuckling the safety harness, I climbed out of the fuselage and crawled away from the fire. Minutes later First Responders arrived and treated me and then flew me to Tampa General Hospital where I spent 6 weeks.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Buy a pre-assembled engine or at least have an expert test and verify the engine assembly.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

I don't know if the engine mechanically failed or if I assembled it incorrectly.
