Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed from 40J Perry Florida Normal climb up to 5500ft felt slight vibration, then had a loss of power but never completely went dead, found a field, pulled carb heat, switched tanks twice, double checked mags they were fine, finished rest of lost engine emergency procedures then began a force landing, landed it on the mains and slowly brought nose to the ground but as soon as nose wheel touch ground dug in broke off. the plane began to nose stand and then landing wings down where it was put to rest. climbed out made sure family was okay then began to stay clear of the aircraft until authority came.
