

Anthony @ FAA

I WAS TAKING off RW 6 @ KILM.
4 souls on board. a couple of suit
cases in baggage.

Cleared for take off I accelerated to
73 & rotated. the plane started shaking
& veering left & was off the run way.
I WAS trying to straighten the plane
out but it kept going left. I saw the
trees coming so I put it down @ the
last second. No body was injured thank
god.
