Subject: Helicopter crash

Stewart,

Me Javier 37 years old and my two kids Mayra 13 years old and Kevin almost 3 years old were running bikes on the loop bike track around BWI airport . We used to run bikes on this loop many times on spring and summer time .

Saturday 4/16/16 around 12:40 pm we stop and get off the bikes to see the helicopter fly near us because my son likes to see air plans or helicopter . After few minutes I noted something was wrong with the helicopter by the way it was flying and we also see the doors been wide open I start recording a video unfortunately this was a tragedy for the crew of helicopter which fell down and crash with the woods and ground just behind Amtrak tracks after that we call 911 for help.
