NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The accident occurred when Walter started to take off from the private runway. It was windy and as soon as the airplane was off ground, the right wing hit the electronic fence along the runway and then the plane ~~took~~ rose up a little and just suddenly went to the left of runway. It crashed into the tree in the field.

Paul Embree (the son) got out of the plane himself and Walter was lying on the seats with blood on his face.

Paul was taken to the local hospital ~~and~~ with minor injuries while Walter was taken to UVA Medical Center in the helicopter. He was in ICU for 7 days and moved to Surgical Intermediate Unit for another 7 days. He was sent to Hiborg rehab and stayed there from 07/14 to 08/01 and now he is receiving home care from UVA Medical Center.

Thanks.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I shouldn't go flying when the weather isn't good enough
and shouldn't go flying when you feel tired.
