Aircraft N9352S

Beechcraft Sundowner C23

Total Time: 2174 est. – Tach: 58.71

On August 29, 2016 at approximately 5:00 PM I departed 7B6 airport to practice maneuvers, the maneuvers were in preparation for a private pilot check ride and included a simulated cross country with turns around a point steep turns, a diversion and take off and landings. At approximately 6:10 I landed at KMMK. Approximately 10 minutes later, I departed MMK for 7B6 with a diversion to 4B9. I Arrived at 4B9 approximately 30 minutes later and selected runway 21 for landing. On the first attempt I made a go around because I didn't feel comfortable with the landing setup. On the second attempt all was normal up until the transition, when I floated past the intended touchdown point. I applied the brakes in a pumping motion then pressed hard. The airplane skidded past the end of the runway and over the embankment. I turned off the battery switch, the ignition switch and exited the airplane uninjured.
