I was walking my dog on the far side (N) of the retention pond behind Country Brook Ave. I looked up the hill (S) and saw the plane flying lower than expected, with the landing gear down. It was silent. It flew W to E. Then it suddenly made a sharp turn left (N) and the nose dipped downward. It quickly went below the treeline and I lost sight of it. Less than a few seconds later I heard the boom of the crash. I ran up the hill with my neighbor, who also heard the boom, and saw the wreckage. There were already others at the scene.
