

MEMORANDUM FOR RECORD

Douglass Brazy
Air Safety Investigator
Eastern Region Aviation

June 10, 2016

Subject: ERA16FA143, N776JM, Robinson R-44, March 27, 2016, Canadensis, Pennsylvania.
Record of conversation with Rick Meyer, pilot's son. Mr. Meyer is also a pilot.

On June 10, 2016 Mr. Meyer provided the following information:

On the morning of March 27, 2016, his father, the pilot, awoke feeling somewhat dizzy, and had an elevated heart rate. By the time he departed for the trip, he felt well.

Mr. Meyer reviewed the weather conditions and forecasts with his father prior to the flight and they were satisfied that the conditions should be suitable for the flight, noting that if they were not, the pilot could change his plans. The flight was from the home base airport to the airport near their cabin, a route which the pilot had flown many times.

Mr. Meyer advised that he would later forward information about the pilot's current medications.
