Narrative

***** (lwmain22042310182015)**

On 10/18/2015 at 1916 hours, I responded to 9416 Hwy 11 within the jurisdiction of Spartanburg County in reference to a downed aircraft. On arrival, I met with a Campobello officer who was already on scene who had three individuals with him that he identified as the people who were in the crashed plane. The pilot, Gennady Myalik, his juvenile son, and his juvenile son's friend, Tatiana Solik, were out of the plane and insisted that they were in good health. Neither the pilot or the passengers had any identification on them after getting out of the plane. Medic 21 arrived on scene to assess the pilot and passengers.

Myalik was the pilot and the only individual who had a visible sustained injury that was a gash at the top of the bridge of his nose just below his eyes. Myalik stated that he was taking Solik and his son for a ride in the plane because Solik had not been on a plane ride before. Myalik stated that he took off from Fairfield airport in north bound direction at around 1845 hours. Myalik stated that once in the air, he turned southbound and traveled for about seven nautical miles when the engine stopped. Myalik stated that he turned back northbound to attempt to return to the airport, but did not believe he would make it and was also looking for places he could do an emergency landing. Myalik located a field during his descent and did an emergency landing in the field at 9416 Hwy 11. Myalik stated that the plane flipped over during the landing, and that he helped the passengers(Solik and juvenile son) out and got out of the field when police arrived. Myalik insisted that he was fine and did not wish to be transported to the hospital. Myalik provided the planes identification number as N6636A and completed a written voluntary statement with my assistance in writing what he told me to write for him.

The juvenile son was unable to articulate anymore on what had occurred and was primarily concerned with retrieving his phone that he realized was still inside of the plane. He was advised that he would not be able to re approach the plane until federal investigators had arrived and conducted their investigation. The juvenile did not have any visible injuries and was observed by EMS personnel. Juvenile son did not complete a written voluntary statement.

Solik did not have any visible injuries but was looking wide eyed towards the ground in front of her. When asked if she needed to sit down she responded "no" and that she was fine. She appeared to be shaken up from the crash because when asked her name, she gave me a confused wide eyed look and was unsure of how to answer. I waited a moment and then asked again, Solik did provide her name and birthdate on the second attempt and was able to answer all other questions from that point on without issue. Solik insisted that she was fine but was transported to Spartanburg Regional by Medic 21. Solik did not provide a voluntary written statement.

Forensic Investigator Graham arrived to process the scene. SGT Wilson arrived on scene and made contact with FAA who advised that investigators would come the following morning to investigate.

The crashed plane was laying upside down in the field. Plane was gray in color with red tips at the end of the wings, identification number N6636A. Pilot Myalik advised that the plane was a SESNA 172 single engine model.

BWC was activated initially when responding to this call but was turned off after it was determined that everyone was safe and my actions turned into that of an investigative nature. No VNI issued.

VNI Issued = NO

BWC = YES

FORENSIC REPORT

Spartanburg County Sheriff's Office

Case No:15100951

Offense Type:Information/Plane Crash

Victim:Myalik, Gennady

Location:9416 Highway 11

Patrol Ofc:Gwinn, J.

Forensic Ofc:Graham, L.

I was requested to respond to 9416 Highway 11, about a quarter mile from Highway 11 and I-26 in reference to photographs. Upon my arrival, I met with Dep. Gwinn and 1Sgt. Wilson who advised me that Mr. Myalik was piloting a small silver, single engine plane and crash at this location. Mr. Myalik only sustained a laceration to the bridge of his nose. I began my investigation by taking overall photos of the wreckage and Mr. Myalik. No other evidence was collected.
