Wayne J. Breissinger, [REDACTED]			
Address: [REDACTED] Darien, NY [REDACTED]			
SUBJECT Accident: 2016EA23A0005			
DIGEST On May 19, 2016, Mr. Wayne Breissinger was witness to an aircraft accident adjacent to the Genesee County Airport (GVQ) in Batavia, NY. On May 24, 2016, I telephoned Mr. Breissinger and interviewed him to obtain his statement regarding the accident. He stated that he was driving a dump truck and skid steer out of the company across the street from the airport and headed west on East Saile Drive. He said that he immediately noticed an airplane banking sharply to the left and headed toward him. He thought the plane was going to crash. He stated that the plane came within what seemed like inches of the top of his truck and went under the wires that crossed the road, then landed on the road. He said that the plane rolled out for what he thought was a mile or so and that cars were coming the other way on East Saile Dr. He stated that he was amazed that the plane did not crash or that no one got hurt. He stated that he drove home following the incident, but felt shaken up, so he contacted 911 and reported what he had seen. I thanked Mr. Breissinger for his time and asked if we could contact him again, if needed. He said yes.			
CONCLUSION, ACTION TAKEN, OR REQUIRED
