NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At approximately 80 feet above the ground during takeoff from an EMS scene I heard a series of loud bangs followed by: slight left yaw and low rotor horn. I immediately lowered collective and manipulated the cyclic control of the aircraft to the right with right pedal to avoid EMS ground personnel. I alerted the crew to brace for a hard landing but before contact to the ground I leveled the aircraft and applied all remaining collective to cushion the landing. After landing I secured the fuel valve, throttle to the off position while applying rotor brake to completely stop the main rotor.
