

MEMORANDUM OF RECORD

Eric Alleyne
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern
Region

NTSB Case Number: ERA16LA328

Subject: N526D, T-28C engine
examination and notes

Parties: FAA inspector

According to the FAA inspector during the examination of the engine they did not find any mechanical issues that would have prevented operation. The engine was heavily damaged and further examination was not conducted. The inspector believed that the engine may have lost a cylinder but the examination did not reveal that anomaly. The airplane was released back to the owner and then scrapped. No other examination was conducted on this aircraft.
