

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: April 12, 2017 at 0835 EDT
Person(s) Interviewed: John Stone –pilot
NTSB Case Number: ERA17LA152

Narrative:

Mr. Stone was interviewed by telephone.

Mr. Stone is owner and pilot of N3846T, Zenith CH701.

Mr. Stone stated he had a normal preflight, run-up and systems checked good, he took off from his personal runway and the airplane was running normal, he noticed he was not climbing like he should have been and at the end of the runway was some powerlines. He did not want to hit the powerlines and pulled up to hard and stalled the airplane.

Mr. Stone stated thinking about it now, he thinks the winds were swirling and may have kept him from climbing.

Mr. Stone stated there were no mechanical problems with the airplane.

The accident occurred on this property located at [REDACTED], Red lion, PA 17356
