Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage to Runway 29 PAPI
Damage to right wing, propeller, cowling, left landing gear, and tail wheel.

NARRATIVE HISTORY OF FLIGHT *(Place type or grade in left)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Filed a FRZ flight plan with Leesburg Flight Services at 12:00 PM EST. Departed Potomac Airfield (VKX) at 12:30 PM EST en route to St. Mary's County Regional Airport (2W6) under ideal VFR conditions. Sky was clear and visibility unlimited arriving at the 2W6 traffic pattern (left downwind for runway 29) at approximately 12:55 PM EST. Final approach to runway 29 proceeded smoothly with a left quartering headwind at 3kts. Unfortunately, an excessive sink rate upon touchdown resulted in a bounce that developed into a ground loop. I attempted a go-around which was unsuccessful. As I applied full power, the aircraft veered to the left of the runway and my right wing dipped and clipped the runway 29 PAPI resulting in loss of aircraft control. The aircraft consequently made contact with the ground coming to rest in the upright position.
