Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Left wing, left gear, bottom of fuselage, propeller & strut.
All from a quick visual inspection

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

8:30am EST, I departed KFSM direct to KASH. Conditions were great, flight was nice and uneventful. I was cleared to land runway 32. I had a great approach and landing and then lost directional control. Plan started skidding to the right and too much weight was on the left gear at that point leading to its collapse. At that point the left wing hit the pavement and the propeller hit as well. At this point it was 9:03am EST. No injuries to report, only the pilot was on board.
