Subject: ForeFlight Re: NTSB Request regarding Hopkinsville, KY accident from 5/12/2017

Hi Paul,

Thanks for the follow-up. I did find a ForeFlight account for Mr. Giamemetta, but he did not file flight plan using that ForeFlight Mobile account. It's possible he briefed the route though, so I'll let you know on Monday once our Server team is back in the office to check the logs.

In the interim it appears that the last route he entered into the app on 5/12/2017 at 14:10:05 UTC was: KDVN KEKY KECP (flight planned at 160 knots, but no altitude entered).

The previous day (5/11/2017 at 16:55:32 UTC) he entered the route: KDVN KMSL KECP (also flight planned at 160 knots, but no altitude entered).

Both route do pass to the west of Hopkinsville.

I'll be in touch on Monday once I've checked with the Server team.

Regards,

-Josh
