Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

On October 1, 2016 I did a pre-flight check on Piper Cherokee PA-28 (N 499TG). I added 6 gallons of Avg. Gas to bring fuel up to tabs which is 18 gal. per side. I flew from PIB to LUL to practice landings. I flew across mid field at LUL and set up to land on runway 13. I checked for rich mixture, turned on elec. fuel pump and applied carburetor heat. I entered landing pattern, throttle back and applied flaps at a flap speed, I then applied another notch of flaps because my approach was high. I then decided to to go-around and do another approach. I throttled engine up , RPM's increased , I pulled flaps up turned carb. heat off. Engine started running rough, I reapplied carb. heat, elec. fuel pump was still on, I switched fuel tanks, started losing altitude and landed plane in field. As the plane was rolling to a stop left landing gear hit a stump hole damaging left landing gear as plane came to a stop.
