To whom it may concern,

Here are the details of the accident as far as I can remember on Sunday, October 16th I was working in my shop behind my house and my wife called and wanted to know if I could fly our granddaughter to Cherokee Co airport. I don't own my own airplane at this time but, I have a friend that has offered to let me use his Cessna 150 several times. I have time in Cessna 172 and I have rode in the Cessna 150 several times so I felt comfortable with it. I remember putting 10 gallons in each wing which brought the fuel to 3/4 on each side. I then taxied to my backyard to pick up my granddaughter, the small dog and her bag of clothes, then I stopped about 30' of the runway on the East taxiway and went thru checks and run-up. There wasn't much or any wind so I chose runway 11 which starts off downhill, I don't remember exactly where I rotated but I remember after rotating that our climb rate and the trees in front of me were not a good scenario. I remember heading for the shortest tree and thinking if I just get over that tree I will be able to make a controlled landing on the other side. The last thing I remember was going over that tree and the next thing I remember was talking to the surgeon at Grady.

Thank you,

Clarence J Thompson
