NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I took off from Massey Air Park at about 10:15am on a direct route to Orlando executive airport, about 10 min into the flight, the engine starting running ruff, I climbed to 1200ft then the engine started to back fire and run even more ruff, I tried carb heat, adjusting throttle, prop, mixture nothing worked, I started losing power and it was becoming hard to maintain altitude, without losing major airspeed. I did not know if the engine was going to get worse or die completely. At this time I was coming over the Sheriff Training Facility at about 900-1000 ft, there are mostly trees & swampy areas around, I decided to try and land here. Unfortunately the Sheriff airport was performing practice maneuvers at this time with people cars & cones on the tracks. I entered a slow spiral decent trying to get their attention to move off the track, but by the time I came onto final approach there was still a few people in the way, on

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

the track, at this time they realized I was landing and started to move out of the way but I did not take the chance of them not moving in time so I aimed for a smaller area near the end of the track, as I touched down I maneuvered around a few cones trying to stay on the pavement as long as possible. I realized I was going too fast to stop before getting to the gate, so I turned into the fence to stop me from going further, towards some parked cars. The plane spun around upon hitting the fence, nosed down and came to a stop up right a few feet past the fence, I walked away unhurt and plane took damage.
