NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

N62RF

Winds calm (230/5), clear sky, decided to practice 3 night landing, full stop with taxi back, to be current. Discussed plan with Richard Sobel CFI. Plan agreed to perform 3 night landings at KISP. In order to allow time for my night vision to adjust and be sure plane was configured properly I had the following plan.

I contacted ATC for clearance and requested 3 full stop landings with taxi back. Once cleared would "punch out" with a squawk code. Requested direct to Calverton "CCC" with ATC. Performed the published hold, then inbound with ATC and vectored to the final of Rwy 24. (ILS 24 loaded into Garmin for situational awareness.) Once on final prepared for landing. Used my written checklist. Everything with the approach and completed checklist appeared normal. Then did my GUMPF's check to be sure several times.

Felt like plane touched down normally then dropped. Plane skidded to a stop, went through checklist again. Fuel off, all electric off, opened door, stepped out of plane and moved away. Waited for the fire and rescue to come.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Have second pilot present to confirm everything on checklist in order.
