RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Part would be to not distract a short final pilot with the additional of a last minute clearance by the Tower for take off of another twin prop plane. I mentally was distracted at that point thinking about having to do a go around with obstructions in the area or planning on what to do if this plane made an aborted take off. Pilots are distracted enough by the adverse winds and short final checks to keep adding to our work loads.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Landing gear circuit breaker was popped when the plane came to a stop.

FOR NTSB USE ONLY

NTSB Accident/Incident No. ERA17LA151	Reviewed by NTSB Regional Office ERA-VA	Name of Investigator A. McCarter	Date Report Received 04-24-2017
---	---	--	---

On 7 April 2017 at approximately 1250 hours I was the pilot of N56H on approach to KFTY, Fulton County, Brown Field. Initially I was to land on Rwy 26 but because of the high gusty winds favoring 32 and being offered by the controller, I switched to Rwy 32 as this was more appropriate for the winds.

To the best of my knowledge, I dropped approach flaps 15 and pulled the gear in my setup for short final with a really bumpy ride down final and was angered by the tower clearing an aircraft to take off on my short final to the runway. I kept thinking if this guy does an aborted take off- I'll have a real problem. I don't remember looking down to confirm "Fuel on mains, Flaps at approach, and gear down and locked." Continuing down to touchdown and dealing with the winds, I experienced some wind shear I believe as I lost lift right before the runway and dipped pretty hard toward the runway. Having a firm touchdown, the plane lifted up the next thing I knew I was skidding down the runway on the belly of the aircraft.

The plane skidded on its belly pretty much straight down the runway coming to a stop just at Rwy 32 @ India taxiway.
