Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The props, flaps, belly skins and nose gear doors, there was some additional damage to the aircraft in the recovery process.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

My wife and I flew to Detroit to visit our son. We departed Valparaiso at 06:15 am cdt and returned to Valparaiso approx. 12:30 cdt. A trip was booked about 1500 cdt for a cargo trip originating out of KPWK going to KAGS. The cargo was supposed to be ready by 1630 cdt. The pilot that was scheduled for the flight called in sick. I took the trip. The cargo was delayed until 20:00 cdt. I departed for KAGS. The incident occurred about 12:55 edt. I failed to deploy the landing gear at the final approach fix, as is our standard procedure, due to a distraction with an attempted communication with the FBO at KAGS. I also failed to do a final check for a safe gear indication until it was too late. The distraction and fatigue were factors in the occurrence.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

The accident could possibly been prevented if I had not allowed a non essential communication attempt distract me. The delay with delivery of the cargo to the airport should have been cause for me to disqualify myself for the flight.
