NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

After filling with fuel at FVX, I departed for a private paved strip at Slate River Ranch, approximately 12 miles to the North West. A neighbor who I had not met but who owned a grass strip between FVX and the private strip at Slate River Ranch had encouraged me to visit and as we passed over the small strip where I eventually attempted a landing, I falsely identified it as this other gentleman's grass landing strip. I made 2 passes in a pattern around the strip which had a bright windsock and mowed landing area (I found out later the strip was used for RC Planes). The first was without flaps and the second was with full flaps. On the third pass, I attempted a landing, touched down and realized that I would not have enough room to stop the plane before the trees on the far end of the strip. I attempted a go around but had insufficient momentum to maintain sufficient airspeed. After clearing the trees, the plane entered an abrupt stall and impacted the ground. Because I was seriously injured in the accident, my memory of the period immediately before the stall and the stall itself is imperfect. However, I believe that I was at full power with flaps fully deployed.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This accident could have been avoided had I properly identified the field and not attempted the landing.
