

MEMORANDUM OF RECORD

Eric Alleyne
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern
Region

NTSB Case Number: ERA17LA234

NTSB oversight: Dan Boggs

Place: Florida Aircraft Recovery

Examination date: 10/18/2017

Subject: Airframe examination
summary

Parties: Textron Aviation investigator
(Henry Soderlund)

Examination of the airframe revealed flight control continuity to all of the flight surfaces and flight controls. Fuel system continuity and fuel selector valve operation was confirmed by blowing air from the fuel lines at the wing roots to the fuel strainer. Examination the airframe did not reveal any anomalies that would have precluded normal operation.
