Aircraft Accident Report

On July 16, 2017 I, Yuriy Koziy, was flying my Aeroprakt A-20 Vista Cruiser N55US . I was flying a pattern to Brookhaven Calabro Airport in Shirley, NY. At around 7:30 PM EST, I was on my final approach to runway 24. My speed was approximately 60 MPH. At this time, I hit a strong downdraft sink at roughly 700 feet and my engine stopped. I made several unsuccessful attempts to restart it. When I realized that I wasn't going to make to the runway, I decided to land on the top of the trees. My aircraft caught onto the top of the tree approximately 0.3 miles from runway 24. After impact, my plane went down until it hit the ground. The left wing hit the ground and right wing was caught in the branches. I had no injuries to myself, there were no passengers on board, and no one else was injured around the scene. Then, on July 21, 2017, the FAA representatives and I tried restarting the engine. On the third attempt the engine started. After putting the engine on idle, I moved the choke handle forward approximately one inch and then the engine stopped.
