

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: July 27, 2017 at 0845 EDT
Person(s) Interviewed: Eran Stone-Owner
NTSB Case Number: ERA17LA254

Narrative:

Mr. Eran Stone was interviewed by telephone.

Mr. Stone stated he has owned the airplane for one year.

Mr. Stone stated the airplane sat in the rain for 5 days before this accident flight. He does not recall having a problem with water in the fuel in the past.

Mr. Stone stated the airplane sits on the ramp and the ramp is slanted causing the airplane to lean to left quite a bit. He stated he loses fuel out of the tanks if the plane sits a couple days due to the lean of the airplane. He believes this could also create problems with sumping of the tanks. Mr. Stone has brought this to the attention of the land lord, but they do not want to fix the problem.
