

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: August 3, 2017 at 1230 EDT
Person(s) Interviewed: Harold Bricker– pilot
NTSB Case Number: ERA17LA264

Narrative:

Mr. Bricker was interviewed by telephone.

Mr. Bricker stated he has not flown since 2009, when he lost his medical certificate. He stated he keeps his airplane airworthy. He changes the oil every 3 months, he stated he just changed the oil and was running the engine to warm it up and check for leaks, he stated he did taxi around in a circle when his left brake actuator failed, which also controlled the steering in this airplane. The airplane taxied into the grass area in front of the hangar and into a ditch.

Mr. Bricker stated there was no intention of flight, that he is not allowed to fly.
