Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

No damage to any other property.

Both wings broke off the aircraft

Windshield pushed out

Right door fell off

Nose wheel, propeller and engine are smashed down

The tail is broken off

The dash moved, I don't know where

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Left Immokalee airport at approximately 10:30 and flew directly to our private airstrip. I did 3 low approaches and on the 4th pass I landed and when I put the nose wheel down I decided to just do a go-around, because I felt I was running out of runway. I immediately disengaged the air brakes and engaged full-throttle. I rotated to approximately 20-30 feet above the ground and the left wing quickly dropped and touched the ground. I immediately lost control of the plane and crashed.
