ON AUG. 27, 2017 I HAD COMPLETED FIVE TOWS (GLIDER). I WAS FLYING AN L-19 FOR THE WURTSBORO AIRPORT. AFTER LANDING, I ROLLED SOME DISTANCE AND THEN AS THE AIRPLANE SLOWED DOWN, THERE WAS A SEVERE VIBRATION. WITHIN AN INSTANT THE PLANE CAME TO A STOP AND TURNED OVER. THE ENTIRE INCIDENT LASTED SEVERAL SECONDS AT THE MOST. DURING THIS PERIOD I HAD NO CONTROL OVER THE AIRPLANE BUT WAS TOTALLY CONSCIOUS DURING THE ENTIRE EVENT. AS SOON AS THE L-19 HAD STOPPED, I WAS IMMEDIATELY HELPED OUT OF THE AIRPLANE AND

WAS VERY QUICKLY TAKEN BY AMBULANCE TO THE HOSPITAL IN MIDDLETOWN, N.Y. THERE WERE 15 STAPLES PUT INTO MY HEAD WOUND AND SEVERAL STITCHES WERE USED TO CLOSE AN INJURY TO THE TENDON IN THE SMALL FINGER OF MY LEFT HAND.
