

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: September 26, 2017 at 0830 EDT
Person(s) Interviewed: Joshua Martz– pilot
NTSB Case Number: ERA17LA328

Narrative:

Mr. Martz was interviewed by telephone.

Mr. Martz stated there were no mechanical issues with the airplane.

Mr. Martz (pilot) stated this was his third flight of the day. That he and a coworker were flying around a small airport.

During straight and level flight, approximately 1,000 agl, he started to make a left-hand turn and the airplane rolled upside down on him. "in a bat of an eye it rolled over" he stated. The pilot corrected the inverted attitude and saw some tree tops, he tried to pull up but hit the tree tops and crashed to the ground. He did not know that the engine was not running until the FAA told him it quit during the roll over.
