Nantucket, MA [REDACTED]

To whom it may concern,

On Wednesday 7/13 2017 morning at about 7:30am , I was at the airport housing exiting the entrance to start my truck when I heard the sound of a 402 Cessna taking off but it was actually coming down rapidly upon watching the aircraft , there was a loud noise which sounded like the landing gear failed, it bellied all the way to the end of the runway which was a fast and hard landing.

Sincerely,

[REDACTED]
Clement Johnson
