The following statement is given by me Voluntarily, Without Fear, Threat, Promises or Reward of any Kind.

On 9-24-2017 @ approx 1715, I was working in my yard when I heard a plane engine sputter followed by a loud crash. I immediately told my son to tell his mother to call 911 and that a plane crashed. Know I have safety and first aid equipment in my federal government vehicle, I hopped in it and headed toward the sound of the crash. Upon arrival to 24 Meade Road, I noticed what appeared to be a small plane crash. I was the first to the pilot, who was hanging in the wreckage, in a tree. At first he was responsive and I began talking to him trying to keep him conscious. After a few minutes, he stopped responding and breathing. I kept talking to him, but had no response. I then checked for a pulse in his wrist. I could not find a pulse so then checked his neck for a pulse. At this time I realize that his safety belt was choking him. I told several neighbors assisting me, and I forced him upward and pulled down the belt choking him. Someone handed me scissors and I began cutting the belt while pushing upward on the subject to relieve the pressure. Upon reaching

The following statement is given by me Voluntarily, Without Fear, Threat, Promises or Reward of any Kind.

I was in my backyard around 5:10-5:15 and heard a plane that sounded in distress and aweful close. I looked up and it was very low just above our house and appeared to be tilted to the side. I ran out front of saw where the plane had crashed into the house and heard gagging which was obviously the pilot. I went into look with a neighbor and saw that he had something around his throat putting pressure on his neck and couldn't breathe. The neighbor and I lifted him to take pressure off so that the neighbor could cut the strap around his neck and he started breathing again.

The following statement is given by me Voluntarily, Without Fear, Threat, Promises or Reward of any Kind.

Witnessed the plane take-off from run-up to sound of crash.

I am a pilot watching planes at Wing Field runway 6. I was also listening to radio communication of pilots coming in & out of Wings.

At take engine seemed not to reach full RPM & used almost all of runway for lift-off. Plane struggled to gain altitude & at maybe 200-300 feet engine stopped. No glide, or even little then sound of crash.

Came immediately to scene of crash, without a five.

The following statement is given by me Voluntarily, Without Fear, Threat, Promises or Reward of any Kind.

I was in the master bedroom at the front of the house when I heard a loud crash. I ran outside and saw branches down on my driveway and front lawn, and what looked like part of a plane in the bushes next to the house.
