

11<sup>th</sup> September 2020

National Transportation Safety Board  
(NTSB)  
490 L'Enfant Plaza SW  
Washington D.C.  
USA

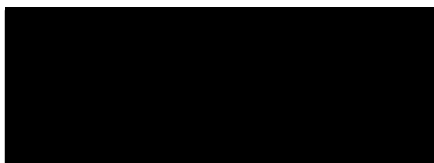

RA2017/238/D2S/TEA

To whom it may concern,

Safran Helicopter Engines (formerly known as Turbomeca) produced the document "N146DU\_SafranHE Investigation Findings & Analyses.pdf" in the frame of the investigation on the accident of the BK117-C2 helicopter, registered N146DU, that occurred on September 8<sup>th</sup>, 2017 near Hertford, North Carolina.

This document contains footnotes that place restrictions on the disclosure or use by third parties of the document or of its contents. With NTSB's agreement, Safran Helicopter Engines consents to add this document to NTSB's Public Docket for this event.

Sincerely,

**Raphaël SPAGNA**

*Head of Accidents Investigation Team*
