

Kentucky State Police Report (Excerpt)

Interview with Amy Foster- continued

Stated he heard Scott Foster say over the radio that they were “going down” and said he sounded “brave”.

Witness Statements

Various Dates & Times

1. Chad Russell, [REDACTED]
2. Robert and Amy Simpson, Deer Hunters in area [REDACTED]
3. Gabrielle Anudson, Deer Hunter in Tree Stand [REDACTED].

Each of the above listed individuals stated they observed the plane crash and provided varying degrees of detail. Mr. Anudson seemed to have the best vantage point and observed the plane prior to impact. He stated that the engine was cutting off, that the engine seemed to have flames coming from it and that the prop appeared to come off and cut the wing, then the aircraft spun over prior to impacting the tree line.

I advised each witness that Brian Rayner with NTSB may be contacting them with more questions and that he might require more detailed descriptions. The thought being that he may be able to articulate in better terms, specific questions regarding avionics and aircraft behaviors in situations such as these. I have been in contact with Mr. Rayner via email and phone and he is aware of the witnesses and their initial statements.

Detective Rusty Anderson of the Barren County Sheriffs Office, [REDACTED] is the primary Point of Contact ref. coordination with the witnesses. He provided an initial list for the investigation and can be reached at [REDACTED].

STATUS OF CASE: Open
