Date: Monday, January 29, 2018 12:59:47 PM

Good morning, Ralph:

Thank you for the update and efforts. It was a pleasure to have met you, too.

I will look forward to receiving copies of certain engine, airframe, propeller, and pilot logbooks from Jim in due course, and I agree with the airframe and engine logbooks remaining with the aircraft at FL Air in Jacksonville.

On the on-line application that the insurance broker made in order to bind the insurance policy effective January 12, 2018, it was reported at that time that the pilot was a sport pilot who had 530 hours total time; 130 hours make and model; and 10 hours in the last 12 months. It was also reported that he was involved in a previous incident involving N102HA.

Best regards,

Adam
