**Subject:** ForeFlight Re: NTSB request for N38523

Hi Paul,

Apologies for the delay, I was at AirVenture last week and it was extra-busy.

We found an account that appears to belong to Mr. Heavner, but we don't show any briefings for N38523.

Just prior to the date of the accident this route was entered into the app:

Date Time (Z) Route

7/23/2018 15:51:13 KIPJ BZM BOSTR HEDEN I68 WEGOM KSBM

That one was planned for 6500FT. There was no specific departure time included.

Around that time a couple of Weather Images were accessed in the app. Recall that we do not archive historical Weather Imagery, but links to the **\*\*CURRENT\*\*** image (as of the time you click on it) for each of those are shown below.

Date Time (Z) Weather Imagery

7/23/2018 15:59:07 "12 HR Prob of Precipitation: DAY 3 Ending at 00Z".

The **\*\*CURRENT\*\*** image is: <https://cloudfront.foreflight.com/imagery/prod/22fe81b6-81d7-4cf6-88ab-b9258514d986.gif>

7/23/2018 15:57:59 "GFS MOS Visibility Forecast 15 HR".

The **\*\*CURRENT\*\*** image is: <https://cloudfront.foreflight.com/imagery/prod/22d51397-2f85-42d8-a12c-82405d7c9028.gif>

I hope this helps; let us know if you need anything else on this one.

Regards,

-Josh
