Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage to wing leading edges. Collapse of fixed landing gear.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

The weather was clear with a 5 mph wind in line with the runway. This is my home field and was intending to do one circuit of the pattern.

After departure from runway 26 KBTP (11:00 AM EDT 06/07/2018) I was on an extended left crosswind at 800 ft AGL when my engine stopped.

I continued in a slightly SSW direction looking for a suitable field in which to land.

I picked a field slightly further than my actual touchdown and proceeded at my best glide speed. (85 MPH)

My touchdown occurred at the far edge of a horse pasture. My plane struck directly into a wire fence and the brush behind it within 6 ft of touchdown.

The fence and brush dissipated my forward momentum while inflicting damage to the airframe and landing gear.

I never lost consciousness or received serious injuries in the event. (1 inch laceration on m forehead is the sole injury)

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)**Was there Mechanical Malfunction/Failure?** ☒ Yes ☐ No*(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)*

The engine is a GM 2.2 liter auto engine. I did the conversion to aircraft use and installed an aftermarket ECU.

The cause of the engine failure was my entering a bad tune which caused the engine to run lean under high load. Detonation occurred and caused a piston to melt halting the engine.
