Date: July 6, 2018 at 0930 EDT
Person(s) Interviewed: David M Grove-pilot rated witness
NTSB Case Number: ERA18LA184

Narrative:

Mr. David Grove was interviewed in person.

Mr. Grove stated that he was sitting in the airplane observation area watching airplanes takeoff and land. It was around 1:45pm when he heard a noise and looked over at the accident airplane touch down. He was not sure if it was after the first bounce or not. He noticed the left main landing gear "trailing behind" and when it landed the second time, he slid off the runway to the right and flipped over and caught fire.
