NOTAMS (D and FDC), AIRMETs, SIGMETs, PIREPs in effect at the time of the accident/incident:

DAMAGE TO AIRCRAFT AND OTHER PROPERTY

Aircraft Damage

- ☐ None ☐ Substantial
☒ Minor ☐ Destroyed
☐ Unknown

Aircraft Fire

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Explosion at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Bent Prop ; EIngine Stoppage ; Broken Ldg gear attach Brackets Left & Right Gear ; cracked skin @ Ldg Gear exit points ; cracked Navlight house ; pimpled skin on underside of left wing 26" (minor) ; scuffed area 1" x 6" on left wing tip .

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Attached

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

- Cover Fuel tank vents during all storage periods.
- Practice engine out landings from high Altitudes & miles from landing sight.
- Approach Planning, engine out, from different orientations to Wind & Runway.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☒ Yes ☐ No
(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

Engine stoppage/Power Loss

N38WS Flight 8-18-2018

6:30 checked weather on Lockheed service for flight OCW direct GYH

Weather reported good VFR to the west most stations reporting 10SM and Clr with some TS activity West and south of GYH Greenville, SC.

Approximately 7:10 pm EDT

Arrived at airport after rain shower passed over from west to east.

Untied, removed tie downs, removed cover, removed Pitot cover.

Move aircraft to Self Serve pumps

Fueled Aircraft. Topped off Main and aux. 26 gallons Full Fuel 37 Gallons . After Fueling pushed back from pump.

Did Preflight. Included sumping all three sumps with approximately 2/3 sump tube each. Poured sumped fuel into aux and check Aux level full. Did not find any contamination or water.

Boarded aircraft. Started per normal procedure.

Taxied to RW23. Completed preflight List.

Wind had started to come up and saw that big wind vane was favoring RW5. Back taxied to other end Did another quick run up and mag check.

Departed RW 5 All normal. Pressure good, oil pressure good, all normal

Passing 1500 turned Electric pump off.

During climb out at around 3,000 ft noticed roughness advance throttle from 25 inches to max, turned Electric pump back on

Fuel flow was low for max throttle full rich. Normally 11 to 12, was around 8

Was near KPGV turned toward PGV. Continued to climb. Nearing 3,500 feet and around 1 ½ miles South east of PGV engine quit. Tried mixture, tanks, Throttle. Nothing. Got a few more burst of power then quit completely

Looked up PGV CTAF, 122.8. Got off several calls announcing emergency landing

Too high to land on PGV so started to spiral down. Ended up on the last turn to the runway too low and was not able to line up. Held turn with good speed margin above stall speed until too low and leveled wings and landed in grass.

Drainage ditch between runway and ramp started and oscillation and broke left gear leg. Came to rest off the ramp in the grass with nose angled slightly down and resting on left wing shut down power, fuel, fuel tanks, retrieved flight bag and phone that had fallen down into the passenger side foot well. And exited the plane. Ramp personnel arrive in a couple minutes.

8-19-2018

Received permission from FSDO office to move aircraft. Work with ramp personnel and Mr. Dillon of Dillon Aviation to get aircraft up on baggage cart and relocated to a hanger.

John Lawing, 9-20-18
