NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed Potsdam KPTD around 3 PM on Sunday, January 28. I was about 6 miles from Harrisville on a direct course at 80 kts and 500 feet AGL. I felt the engine sputter once and then quit altogether. I entered autorotation and shot for a low-lying valley with the shortest trees as my only option. The helicopter came to rest in a near vertical autorotation and the main rotor and tail rotor impacted trees. Other damage included the wheeled landing gear. I exited the aircraft and hiked out of the woods to the nearby road where I was picked up by an associate. I was the only occupant of the aircraft and was uninjured.

RECOMMENDATION (How could this accident/incident have been prevented?)**Operator/Owner Safety Recommendation**

Unknown cause of engine failure at this time; suspect failure of right fuel pump.
