

MEMORANDUM FOR RECORD

Heidi Kemner
Air Safety Investigator
Eastern Region Aviation

October 7, 2018

Subject: ERA19FA003
Who: Mrs. Cathy Young – Pilot's wife

In a telephone conversation, Mrs. Young stated following:

- Her husband left the house at 9 am on October 6th.
- At 10:41 he called her to ask for the code at the airport.
- Just after he called her, he called his daughter and told her he was heading to Ward Aero in Advance, North Carolina, to take a Jeep part down to his friend.
- She didn't know what the Jeep part was.
- He probably departed the airport at 1100.
- She didn't hear from him after that call at 1041, which wasn't unusual.
- The pilot had been to Ward Aero several times before.
- He usually didn't fly outside the area of Fayetteville, WV.
- The airplane is insured and the information is probably at the pilot's office.
- The pilot used foreflight for navigational purposes. He used it all the time when he would fly with her before.
- The pilot did not have any medical conditions.
- He was not taking any medicine either.
- Her daughter checked the phone records online and noted that there were no other phone calls from the pilot's phone except the ones he made to them around 1040.
- When asked if he had made it to the destination airport, she stated that he never showed at Ward Aero. The pilot didn't message or call his friend either. The friend just thought that since he didn't respond to the pilot's message, the pilot didn't make the flight.
