NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On morning of Friday, 19 October 2018, a Local day VFR, one hour proficiency flight by mishap pilot was planned and assisted by the aircraft owner in Fly Baby N-107KW. Route of flight was to two local grass strips for touch and go's. The mishap pilot performed a thorough preflight with owner assistance. Fuel was topped off and tires aired up.

The owner hand propped the 80hp engine for starting and the pilot taxied for takeoff to runway 18. The pilot performed an engine ramp and flight control checks prior to takeoff as per normal operations. The engine sounded good and solid during takeoff and departure. The plane made a left hand climbing turn to pattern altitude of 800 ft over the field. After one climbing circle the plane departed to the east toward RD 93 and 18th airports for pattern work about 0935 hrs. The pilot had an iPad with Foreflight and did not take a hand held radio.

Around 1030 a deputy sheriff arrived at 8FL6 and reported a plane down near Holt, FL. The owner confirmed that the Fly Baby had not returned during the expected time. Later officials confirmed that a crashed plane was found near Holt and at that time the owner proceeded to the crash site. At the site he confirmed that the plane was his.

For the next two days until Saturday, 20 October 2018, the owner assisted the pilot's family, FAA and NTSB investigators as much as possible. He was also able to set up meetings between the FAA, NTSB, and counsel with the mishap pilot's son and the mechanic who had been maintaining the Fly Baby.
