

RECORD OF INTERVIEW

Daniel P. Boggs
Air Safety Investigator
National Transportation Safety Board
Office of Aviation Safety - Eastern Region

Date: November 17, 2018
Person Interviewed: Arnold and Caroline Williams
NTSB Case Number: ERA19FA048

Narrative:

Arnold and Caroline Williams were interviewed in person.

They both stated that they were outside with their caretaker, Tommy Brown getting ready to get into the car to go to the doctor. Arnold stated he saw the airplane over the tree tops and when it was almost directly across from their house the airplane made a sharp left turn like it was turning back to the airport. He further stated the airplane leveled the wings just before it hit the tree tops and then the airplane impacted the ground. Arnold stated the engine was very loud.

Caroline Williams stated the same thing.
