

MEMORANDUM for RECORD

Ralph E. Hicks
Senior Air Safety Investigator
Eastern Region Aviation

Date: March 12, 2020, 1415 EDT
Person Contacted: Matthew Woomer (Flew Dual Instruction with Lewis Midlam)
[REDACTED]
NTSB Accident Number: ERA19FA059 – Apalachicola, FL

This investigator interviewed Mr. Woomer by telephone. Mr. Woomer reported the following:

He and Mr. Midlam flew on a Cessna 206H as part of a rental checkout. The flight took place on October 11, 2018, with a total flight time of 6.8 hours. The flight was from Fort Myers to the Florida panhandle area, where Mr. Midlam conducted business related to the Hurricane Michael response.

Mr. Midlam's performance was "totally fine" and he was a "solid pilot." He was good with the automation on the airplane, including the G-1000. He flew the airplane the entire time during the cross country.

This was not a flight review and he did not believe that Mr. Midlam needed one at the time.

The interview ended at 1430.
